

# It Is Spring - Let Us Not Lose Control - of the Aircraft That Is!

Every year countless aircraft depart from controlled flight, unfortunately many pilots do not regain control prior to impacting the ground, resulting in serious injuries or death. Advanced Preflight refers to conducting a preflight that goes beyond the normal preflight checklist. To learn more about this topic and how to avoid a related accident, click on the link below and register TODAY.

**Directions:** The meeting will be held at the Westmoreland County Special Operations Center. It's located at the corner of RT 981 and Kilo Lane. The conference room is located to the right as you enter the building.

## A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
